Furqan Qamar

FULL STACK DEVELOPER | .NET, ANGULAR & AZURE

Kochi, Kerala, India | furqanqamar510@gmail.com

furqanqamar.com | linkedin.com/in/furqanqamar

PROFILE

Full-stack developer with 8+ years of experience across financial services, software delivery, enterprise applications, and cloud modernization. Currently a remote contract developer with Dasseti's Dubai office, with a growing freelance practice. Experience includes leading four developers, building Angular interfaces and .NET APIs, and modernizing legacy workloads.

CORE SKILLS

Frontend: Angular, TypeScript, JavaScript, HTML & CSS

Backend & data: C# / .NET, REST APIs, EF Core, SQL Server, MSMQ

Cloud & delivery: Azure, Azure DevOps, CI/CD, Docker, Kubernetes

Team practices: Team leadership, Code reviews, Agile delivery, Stakeholders

PROFESSIONAL EXPERIENCE

Dasseti

Full Stack Developer · Remote contract | Oct 2025 - Present | Remote · Dubai office

Frontend workflows: Build reusable UI components, forms, and route-driven workflows in Angular, connecting front-end features to RESTful backend services.

Application services: Enhance and troubleshoot a multi-project .NET solution, working with dependency injection, logging, data access, and application startup.

Development environments & documents: Configure and maintain Docker-based SQL Server 2022 environments and support Docmosis Tornado document-generation workflows.

Stability across environments: Diagnose CORS, routing, static-asset, API-hosting, and environment-specific issues. Collaborate with QA and product teams on defect resolution and delivery.

Technology: Angular 15, TypeScript, ASP.NET Core, .NET 10, REST APIs, SQL Server 2022, Docker, Docmosis Tornado, Git

Virtuosoft Technologies

Software Developer / Team Lead | May 2023 - Mar 2025 | Trivandrum, India

Team leadership: Led four developers through planned delivery, mentored team members, and maintained code quality through reviews.

Full-stack implementation: Built responsive Angular applications and RESTful .NET Core Web APIs within a microservices architecture.

Data & cloud integration: Optimized SQL Server queries and implemented secure file and service integration using Azure Blob Storage and Azure API Management.

Delivery & collaboration: Established CI/CD pipelines using Git and Azure DevOps, supported Docker and Kubernetes deployments, and translated stakeholder requirements into technical solutions.

Technology: Angular, TypeScript, .NET Core, REST APIs, Microservices, SQL Server, Azure Blob Storage, Azure API Management, Azure DevOps, Docker, Kubernetes

PROFESSIONAL EXPERIENCE / CONTINUED

DXC Technology

Professional 1 - Application Delivery | Jan 2022 - May 2023 | Bengaluru, India

Migration delivery: Led end-to-end server and job migration initiatives, coordinating with cross-functional teams to gather requirements and plan transitions.

Legacy modernization: Modernized legacy Visual Basic applications and jobs as Azure Functions, and converted batch scripts to PowerShell for more maintainable automation.

Service & workflow automation: Developed and maintained WCF services and automated workflows using Azure DevOps, Hangfire, and PowerShell.

Operational reliability: Implemented job scheduling, monitoring, and error-handling mechanisms, and investigated performance issues to improve system reliability.

Technology: Azure Functions, Visual Basic, PowerShell, WCF, Hangfire, Azure DevOps, Job scheduling, Monitoring

Speridian Technologies

Software Developer | Jan 2020 - Jan 2022 | Ernakulam, India

Frontend modernization: Migrated an AngularJS interface to Angular and developed application screens with reusable UI patterns and API integration.

Business workflow delivery: Built full-stack features and time-sensitive workflows, including status tracking and email reminders, using Angular, Web API, and SQL Server.

Service & data integration: Developed .NET APIs, consumed services from frontend applications, and optimized SQL queries to support application performance.

Release quality: Worked through requirements, design, implementation, deployment, and maintenance, collaborating with QA to resolve defects through Agile delivery.

Technology: AngularJS, Angular 12+, TypeScript, ASP.NET MVC, Web API, WCF, SQL Server, Agile / Scrum

Muthoot Pappachan Technologies

Software Engineer | Oct 2017 - Dec 2019 | Trivandrum, India

Customer information workflows: Developed client-side screens and backend APIs for customer information management using Microsoft web technologies, JavaScript, and API integration.

Offline data integration: Supported the flow of offline branch data into centralized systems using MSMQ and SQL Server.

Operational visibility: Built internal ASP.NET MVC interfaces to monitor and control data synchronization, giving operational teams a way to inspect processing.

Application maintenance: Contributed to debugging, testing, and maintenance while working with the team through the software development lifecycle.

Technology: AngularJS, JavaScript, jQuery, .NET Framework, Web API, ASP.NET MVC, MSMQ, SQL Server

FREELANCE WORK

Scuba Lak - static business website | www.scubalak.com

Developed my first freelance website for a scuba diving centre in Kadmat, Lakshadweep. The live site presents diving experiences, destination information, a gallery, and enquiry routes.

EDUCATION & LANGUAGES

B.Tech, Computer Science & Engineering | Cochin University of Science and Technology | 2014 - 2017

B.Sc., Mathematics | University of Calicut | 2011 - 2013

Languages: Malayalam (native), English, Hindi

Client identities and internal project names are omitted to respect confidentiality.
